Dear Sir or Madam:

On 08/26/2020 at 8:57:13 PM the Los Angeles Police Department responded to an alarm activation at the above address. Our records indicate that this location does not have an alarm permit.

Los Angeles Municipal Code Section 103.206 (b) states: "No person shall install, connect, activate, operate, or use an Alarm System without a valid Alarm System permit having been issued for that purpose."

Further, Los Angeles Municipal Code Section 103.206.1 requires alarm companies to ensure, prior to installing an alarm system, that a valid permit exists or, if not, to obtain one on the customer's behalf. Violation of the Los Angeles Municipal Code can result in a misdemeanor conviction punishable by a fine of up to \$1,000, a year in jail, or both.

As of November 8, 2004, the City of Los Angeles eliminated "free" false alarm responses. Alarm users who do not have a permit are charged a higher rate for false alarms. For the false alarm fee and penalty schedule, go to www.lapdonline.org/alerts.

If you are still operating an alarm system, you must apply for an alarm permit with the Office of Finance and pay the required \$43 annual registration fee. Alarm systems installed on premises owned and operated by Municipal, County, State, or Federal Authorities or as embassy or consular office or residence are exempt from the permit fee but an annual permit is mandatory. You may apply online at finance.lacity.org/permits or request an application by calling the Los Angeles Police Department, Alarm Section, at (213) 996-1200.
